## MINING WAR IN WEST VIRGINIA CONTINUES TODAY

PEACE EFFORTS FAIL, AS EACH SIDE REFUSES TO STOP FIRING

SIX ARE DEAD, MANY WOUNDED—GOVERNOR ASKS FOR U. S. TROOPS

(By United Press)  
Williamson, W. Va., May 14—Hostilities in the Mingo mining war broke out with increased fury today.

The dawn of the third day of fighting in the hills above here brought reports here of six dead and many wounded with the possibility that the casualties would increase.

Attempts at peace last night failed when both sides of the warring factions refused to stop the hail of bullets until the other side was silenced.

The flare of revolvers and rifles up and down the Tug river for twelve miles continued throughout the night. The battle died down shortly after midnight but was resumed at day-break.

Communication with the battle area was still interrupted this morning, but the place of the fighting was discerned by the sound of volleys and the flare in the West Virginia and Kentucky hills on opposite sides of the Tug river.

Shots continued pouring into the half dozen little mining towns in the valley between the two mountain sides.

Some of the reports said the dead were lying in the range of fire and the bodies could not be removed.

**Governor Asks for U. S. Troops**  
Washington, May 14—President Harding and Secretary of War Weeks today are considering sending federal troops into the battle district in West Virginia, it became known here today.

A telegram was received by Harding from Governor Morrow, of Kentucky, on the fight that has been going on for the past few days along the Kentucky-West Virginia border. The telegram said complete data on the situation had been sent to Weeks with a request for federal troops.

**Hottest Fighting of Mine War**  
Williamson, W. Va., May 14—The heaviest fighting of the three days mine workers war in Mingo county broke out at noon today. Fighting factions hiding in the West Virginian and Kentucky hills let loose repeated volleys. Blackberry City, Albion, Gates, Spriggs, New Howard and Merriam were subjected to hot fusillades.

Captain J. B. Brooks, with a detachment of state police, commanded a special train and started for the Tug river valley section.

**Ordered to Send Troops**  
Washington, May 14—Major General George W. Reed, commanding the fifth army corps at Indianapolis, has been instructed immediately to dispatch federal troops to the Mingo, W. Va., coal district if he thinks it is necessary, Secretary of War Weeks announced today.

**Full Regiment of Regulars Ordered to Battle Zone**

Camp Sherman, May 14—The entire Nineteenth Infantry regulars was ordered to prepare to move into the battle zone in Mingo county, W. Va. No order for entrainment had been received.

Previous orders were to prepare a provisional battalion for duty in the mine war field.

The new command from Major General Red in charge of the fifth army corps area, is for nine hundred men to be ready for duty.

**BILL HAYWOOD SHORT \$35,000 IN ACCOUNTS**

(By United Press)  
Chicago, May 14—A shortage of \$35,000 in the account of Wm. "Big Bill" Haywood, I. W. W. leader, now in Russia, exists in the general defense funds of the organization, according to delegates attending the I. W. W. convention here.

"Big Bill" was custodian of the funds. The accusation on the floor of the convention nearly caused a split in the ranks of the organization.

## PRINCESS XENIA

A recent portrait of Princess Xenia, seventeen-year-old daughter of Grand Duke George of Russia, whose engagement to William B. Leeds, nine-year-old son of Princess Anastasia of Greece and the late William B. Leeds, "American Tin Plate King," has been announced in Athens. By marrying young Leeds, Princess Xenia will become an American citizen. She is a niece of King Constantine of Greece.

## U. S. MERCHANTS ARE WINNING CHINA'S TRADE

BY RUSSELL BROWNING, (United Press Staff Correspondent)

Washington, May 14—Americans are winning in the three cornered struggle between the United States, Japan and Great Britain for the great trade marts of China, J. W. Sanger, U. S. Trade Commissioner, returned from the Orient, declared today in an interview with the United Press.

Sanger visited the Philippines, Japan and Continental Asia for the purpose of reporting to the Department of Commerce on the condition of American trade in the Far East. A special feature of his mission was to determine whether American commercial supremacy in the Orient could be hastened through Asia-wide advertisements of our wares.

"China and Japan are comparable only by contrast," said Sanger. "Japan has a good railroad system, banking organization, and a powerful newspaper press. The transition from agricultural to an industrial nation is complete. Japanese manufactured goods compete with our products in her home market and in China. Still American goods are being sold in Japan and the market can be increased.

"Japanese manufacturers spend millions in advertisements in the 800 native newspapers. The circulation of some of these papers is tremendous and in all respects the leading dailies are crack, up-to-date journals, nearly 90 per cent of the Japanese people can and do read the newspapers.

"As yet Americans have not extensively used newspaper advertisements to create demand for their goods. While perhaps not as responsive to advertisement as buyers in the United States, the Japanese are largely influenced by properly designed advertisement. British trading firms in Japan are more conservative than the native merchants in grasping this aid to business and will consequently suffer from American adoption of advertisement selling campaigns.

"The situation in China is different. American business is growing there by leaps and bounds. The principal hindrance is lack of transport. Still in my opinion, we are besting our British rivals. Considering that we buy much less of China's great raw products than Japan, we are holding our own against that country in the sale of manufactured goods."

## Bloody Nineteenth Breaks Out Again

(United Press)

Chicago, May 14—Renewed outbreaks of a feud in the "Bloody Nineteenth" ward came today when an unsuccessful attempt was made to murder Pasquale Tansillo.

An intruder opened the window of his room and emptied the contents of a shot gun. The slugs went over the intended victim's head. He refused to tell police anything concerning the shooting. Tony D'Andrea, chieftain of the "Bloody Nineteenth," was assassinated a few days ago.

## BRAGDON RELEASED ON PAROLE AFTER 4 YEARS IN PRISON

PARDON HERETOFORE BLOCKED BY WOMEN—OFFENSE AGAINST YOUNG GIRL BROUGHT SENTENCE

Minneapolis, May 14—Joseph W. Bragdon, former Minneapolis businessman convicted in June, 1916, of an offense against a young girl, was released from Stillwater prison today on parole. He has been an inmate of that institution since April 30, 1917.

Repeated efforts by Bragdon's friends to obtain his pardon had been failures, owing to the strenuous opposition by women's organizations of the twin cities. The board of parole also refused to release him at previous meetings. The case was brought up again at the meeting of the board yesterday at Stillwater. It was decided that Bragdon already had served much longer than the average inmate committed for his offense. His sentence was indeterminate, one to seven years. With the usual "good time" allowance, he would be entitled to an absolute release in April, 1922.

Bragdon's prison record was said to have been first class. He has been within prison walls a little more than four years.

The case aroused intense public interest in 1916, owing to the prominence of the defendant. He had been president of the Commercial club, and a successful wholesale merchant. The whole city was startled when the identity of the mysterious "Uncle Ned," named by young girls in juvenile court as the man who had given them presents and automobile rides, was discovered.

Bragdon was indicted on the stories told to the grand jury by three young girls, inmates of the state home school at Sauk Center. The indictment was returned March 21, 1916. Bragdon flatly denied any improper conduct with the girls, and the legal battle which followed was sensational.

## Four Enlisted Men Killed by Powder Explosion at Fort Sill

(United Press)

Fort Sill, Okla., May 14—Military authorities today are investigating the death of four enlisted men of the Seventh ordnance corps and the explosion of black gun powder at the supply depot yesterday. The powder had been condemned and ordered destroyed and the supposition is that it exploded prematurely.

The men were blown to atoms.

## BLINDING BLIZZARD RAGES AT THE SOO

MORE THAN SIX INCHES OF SNOW HAS FALLEN—BOATS ARE IMPERILED

(United Press)  
Sault Ste. Marie, Mich., May 14—A blinding blizzard, raging most of the night, left more than six inches of snow and is still blowing today.

The wind stripped giant trees of branches and threatened to imperil navigation. It is feared young gardens are destroyed by the freeze.

According to a wireless message from the wireless station at White Fish Point received here today, the barges Mixer and Peshtigo broke away from the steamer Zilla of the O. W. Bladgett line at three o'clock this morning in the raging snow storm and was reported miles above White Fish Point.

The Zilla was able to get into the lee of White Fish Point and will be safe.

## Mrs. Jake Hamon Suffers Nervous Collapse

Chicago, May 14—Mrs. Jake L. Hamon, widow of the Oklahoma oil millionaire and politician, was under the care of a physician at her home here today.

She suffered from a nervous collapse. Mrs. Hamon was said to have been ill since the trial of Clara Smith Hamon on charges of murdering Jake L. Hamon.

## Lieut. Gov. Collins Is Minus Car, Fishing Tackle

(By United Press)

St. Paul, May 13—Lieut. Gov. Collins is minus one automobile, his fishing tackle and camping outfit. Someone took them all last night. He misses most the fishing tackle and camping outfit—the care was insured.

## Farm Labor Wages Only Half a Year Ago

(By United Press)

St. Paul, May 14—Wages for farm labor is only half of what it was last year, according to developments at the conference of the state agricultural officials.

Farm labor averages \$37.50 a month, according to John P. Gardiner, whereas a year ago \$75.00 was the average.

Gardiner is connected with the state industrial commission temporarily.

## Detectives Pulled For Parking Cars Against the Rules

(United Press)

Minneapolis, May 14—Frank Regan, captain of detectives, and four of his men looked at the calendar yesterday and sighed.

All reported to Desk Sergeant Hertz for parking their cars against the rules.

An ambitious motorcycle policeman tagged them.

## ADMINISTRATION DRIVE TO REDUCE PUBLIC EXPENSES

IS UNDER WAY AT WASHINGTON—REDUCTIONS MUST BE MADE IN EVERY DAY EXPENSES

RAYMOND CLAPPER, (United Press Staff Correspondent)

Washington, May 14—The Harding administration's drive to force its household expenditures back to normalcy is in full swing today. Steps were taken toward an economic campaign which is in full swing according to administration officials are:

1—Instructions to cabinet members that they must stop the practice of overstepping congressional appropriations and turning in deficiency requests to cover the excesses.

2—Appointment of Walter F. Brown to represent the president in mapping out a re-organization of the executive department on an economic basis.

3—Ordering of a survey of wasteful practice in leasing private buildings for governmental use.

A careful study of the financial conditions of the government by Secretary of the Treasury Mellon has failed to give much hope of materially reducing the tax burden except in every day expenses and for this reason the new administration is putting much emphasis on the economic program.

The investigation of the wasteful practices in leasing of private buildings grew out of the discovery made by Postmaster General Hays, who believes that millions of dollars are being expended unnecessarily in this way. In many cities federal officials and officials of government commissions occupy elaborate suites in high priced office buildings where more modest but ample accommodations could be had.

## Counsel for Son Will Oppose Stillman Divorce Settlement

(United Press)

New York, May 14—Reports that James A. Stillman would withdraw his divorce suit circulated in connection with the postponement of the "secret hearings" today, brought out the information that counsel for two-year-old Guy would oppose such a move.

John E. Mark has declared several times that any settlement outside of court would not affect his determination to prove the child's legitimacy and that attempts by either party would probably bring this part of the action into court.

Despite denial of the attorneys for both sides, the postponement of the hearing from May 19 to 25 has maintained the significant report that the proceedings would be postponed from time to time until a settlement had been made.

## FEMALE BLUE BEARD IS TYPHOID CARRIER

EXPLAINS HOW SHE MIGHT HAVE INNOCENTLY CAUSED HUSBAND'S DEATHS

(By United Press)

Honolulu, May 14—Mrs. Lydia Southard, alleged feminine "Blue Beard," told the United Press today that she believes she is a typhoid carrier and that this explains the death of four of her husbands and one brother-in-law.

"I am innocent of any wrongdoing, but I believe that I may be a typhoid carrier," she said in an interview today.

"All my husbands died of typhoid. I have certificates to prove it."

She is held here on suspicion of having made away with five men by poisoning them. Mrs. Southard, who is young and pretty, has maintained a stubborn silence until today.

Sitting in the cell of the Honolulu jail the woman who is alleged to have caused her husbands' to insure their lives then poisoned them and nursed them until they died, gazed at the wall when plied with questions. Then today for the first time she spoke freely in announcing what her defense would be.

## ESTHER LEE GOULD

A new record for brilliant scholarship has been established at the University of Columbia by Miss Esther Lee Gould. Although only twenty years of age, Miss Gould is to receive the degree of doctor of philosophy, after only one year of preparatory work, instead of the usual three or four. She is specializing in languages, and is proficient in Latin, Greek, French, Italian, German and Spanish.

## WOMEN'S STYLES DESIGNED BY MAN

(United Press)

Chicago, May 14—The reason girls dress in narrow knee-length skirts was revealed today.

The dressless sex—curious man—sits hidden behind the lingerie counter and pulls a string that regulates the length of my lady's skirt.

A visit to the Chicago great style setting stores today showed that men designed the most minute details of the girl's wardrobe and what she should not wear.

For instance, Lucille, Limited, one of the firms that have much to do with designing styles, was visited.

"May I interview Lucille?" the girl behind the hairpin counter was asked. Lucille was introduced. She wore a salt and pepper suit. Lucille was smoking a cigar. Lucille was a man. T. J. Duggan, alias Lucille, Limited, has much to do in setting the styles that shock the nation.

These are the latest styles according to men who help create them:

"The ridiculous short and narrow skirts are worn where the woodbine twined and I sincerely hope that it will not be revised until Gabriel blows the trumpet. The sleeveless evening gown is unquestionably popular and one might venture to say that as evening gowns are wonderful bathing suits. Nevertheless there are some women who remain within the boundary of the dignified and still wear beautiful and conservative evening gowns. The length of the evening gown is eight inches from the floor. The walking suit is ten inches from the sidewalk and the newest styles show longer skirts.

## Borah Will Tell Senate What President Said on Disarmament

(By United Press)

Washington, May 14—Senator Borah is preparing to give the senate today a message from President Harding on disarmament.

Borah's message, the result of a conference with Harding some time ago, will be given, he said, if Senator Poindexter in charge of the navy bill, will tell just what Harding said to him about the timeliness of a national disarmament conference.

Poindexter, and Senator Hale, of Maine, recently announced after calling on Harding, that the president had strongly intimated that he considers the present an inopportune time to press the disarmament idea.

"I have not given my talk with the president publicity," said Borah, "because I did not think it was intended for congress."

## Gary Workers Are Reduced 20 Per Cent

(By United Press)

Gary, May 14—All of the fifteen thousand employees in the Gary plants of the United States steel corporation, were officially notified today of a 20 per cent reduction in wages, effective Monday.

Piece-workers are not affected.

## UPPER SILESIAN REVOLT THREATENS EUROPE'S PEACE

MAY BRING ON POLISH-GERMAN WAR OR SPLIT THE ALLIES

LLOYD GEORGE'S SPEECH DENOUNCING POLAND CAUSES SENSATION

(By United Press)  
London, May 14—The Upper Silesian situation is rapidly developing into an international crisis holding the dual danger of a Polish-German war and a split in the entente, according to well-informed observers today.

Premier Lloyd George's speech in the house of commons on the threatened Polish war has caused a great sensation throughout France both in official and unofficial circles.

**Anglo-French Relations Strained**  
Paris, May 14—Anglo-French relations are being strained to the breaking point several Paris newspapers declared today on the comment of Lloyd George's speech regarding the Upper Silesian situation.

At the same time it was learned from semi-official sources that France is determined to enforce her program of awarding most of the industrial district in Upper Silesia to Poland which Britain opposes. In this connection, it was said Premier Briand will refuse to participate in the next meeting of the supreme council unless she is assured that France will accept in principle her Polish policy.

**England Upholds Premier's Denunciation of Polish Aggression**

London, May 14—The Upper Silesian situation apparently has been brought to a climax by Premier Lloyd George's denunciation of the Polish insurgents. His speech was being accepted throughout Europe today as a warning that Great Britain intends to see that the treaty of Versailles is being respected by the allies as well as Germany, and that Poland must accept official responsibility for invasion of Upper Silesia by Commissioner Korfanty.

With the exception of the Post which attacked Lloyd George's pro-Germanism, and "hatred of Poland," the British press generally approved of his speech. The Daily News denounced Poland's "mad ingratitude" and emphasized that the warning was addressed equally to France, Germany and Poland.

## Germans Ready to Invade Upper Silesia

Berlin, May 14—The German army is ready to invade Upper Silesia immediately in an effort to drive out the Polish insurgents, it was learned semi-officially today.

The German government is completely satisfied with Premier Lloyd George's speech but cautioned the government to await official permit from the allies before sending troops into the disputed territory.

Germany's army was ready, however, and waiting patiently to grip with the Poles. The Poles have done damage to railroads, factories and mines, and have destroyed the Kosel bridge, according to reports.

## Legion Hopes Georges Carpentier Will Win

Columbus, Ohio, May 14—Carpentier is going to win.

At least he is if the efforts of the local post of the American Legion has anything to do with it. They are going to send him the left foot of a Missouri graveyard rabbit caught at midnight in the dark of the moon by a cross-eyed nigger. The token is being mounted and will be sent to the Frenchman as soon as the job is completed.

## Pat Shea Joins St. Paul Club

St. Paul, May 14—Pitcher Pat Shea, who starred with Toronto in the International League last year, will join the St. Paul American Association club at once, Mike Kelly announced today. Shea was released by the New York Giants in the Godie Rapp deal. The Giants paid Toronto \$15,000 for Shea.

Carl Hanson, of Peoria, Ill., a pitcher, and infielder Whalen of California, have been released by the Cubs to St. Paul, it was announced.

## INSPIRATION ON THE WING

Great Compositions That Seem to  
Have Been Awaiting the Moment  
of Their Birth.

Charles Kingsley returned home one  
night rather dejected because a ser-  
mon he had preached that day in  
London had proved a little too "social-  
istic" for the incumbent. Instead of  
going to bed he paced back and forth  
in front of the fire, and his wife,  
knowing he was composing, left him,  
and retired. In the morning he re-  
cited to her that moving lyric:

"Three fishers went sailing out into the west,  
Out into the west as the sun went down."

There is a tablet in the porch of  
Wrexham church to the memory of  
Bishop Heber, which records that the  
most popular of all missionary hymns  
was composed in the town. Reginald  
Heber, who was then vicar of Hodnet,  
happened to be staying at the vicar-  
age with his father-in-law, Dr. Shipley,  
dean of St. Asaph's, who was to preach  
a missionary sermon on the Sunday.

Heber and other friends were as-  
sembled in the library on the Satur-  
day, when the dean asked his son-in-  
law if he could write something for  
the service next morning. Heber re-  
turned to the further end of the room  
for the purpose and at the end of 15  
minutes he read the first three of the  
four verses of which the famous hymn,  
"From Greenland's Icy Mountains,"  
consists.

His hearers were delighted, but He-  
ber said the sense was not complete,  
and devoted another five minutes to  
the fourth stanza.

Silly Prison Sentence.  
In Italy it is not uncommon for a  
criminal to receive full sentence upon  
each of a number of separate con-  
victions. In Sicily, for instance, a man  
named Lupo Salvatore was found  
guilty of 63 different acts of fraud.  
He was condemned to three years' im-  
prisonment on each of the 63 counts,  
bringing the total length of his sen-  
tence to 189 years.

Although James Monroe, who was to become one of our most famous Presidents, played his part in the Revolutionary war with gallantry, and was wounded at the battle of Trenton, it was after that wound had forced his retirement to private life that he got his real start on the path that was to carry him to fame. Upon receiving his wound the young man, who had previously been promoted to a captaincy by Gen. Washington, returned to his home in Virginia and took up the study of law. He entered the office of Thomas Jefferson, who was then governor of Virginia. Jefferson had a large library, and inspired Monroe with a desire for study. The two formed a great attachment, and Jefferson made the young man his secretary.

## THEY GOT AWAY

New trials have been denied to Mrs. Emma Bergdoll and four other defendants convicted in the federal court of aiding Grover Cleveland Bergdoll and Erwin Bergdoll in evading the army service. Presumably these people will be compelled to pay whatever penalty is incurred by such a crime.

It contributes a little to the dignity of the United States that no undue liberality has been shown to the present group of offenders, but nothing will alter or palliate the fact that Bergdoll was allowed to get away.

Similarly, though nobody wants William Haywood back in this country and everybody is tolerably sure that he will get what is coming to him, ultimately in Russia, it is not a particularly pleasing or amusing thing that he was allowed to get away. Other men, his associates, less offensive most of them to the peace and safety of the world in general than Haywood himself, are in custody and presumably will fulfill their penitentiary sentences—but Haywood got away.

Not by such travesties as these are respect for law and the power of government incriminated.

Germany's change of head has not done enough for her. She still needs a change of heart.

A motor magazine states that the modern motor car is fool-proof. Unfortunately its victims are not.

## Work and Men.

Work is the greatest boon ever conferred on man. Had he been able to live without it his development would have been hopeless. Look at the races to whom life is easy, where Nature is most luxuriant and productive, where, there being no cold, no clothes are needed, and where food can be gathered without the planting or cultivation. They are the weakest of God's creatures and no progress can be expected of them. The stronger races are those who have much to do to live. Work has made them.—William Howard Taft.

## 650,000 MEN IN RUSSIAN ARMY

Of These 400,000 Are Stationed on Western Front.

## TROTSKY IS IN SOLE CHARGE

Council and General Staff, Composed of Old Generals, Utterly Without Influence—120,000 Soldiers on Black Sea Coast, in Azerbaijan and Persia—Army of Interior is Really a Police Force and is Composed of 80,000 Men.

Officially the forces of the soviet are divided into 22 armies, writes a correspondent to the Daily Telegraph, but of these only 17 exist in reality. On paper every army has from three to five divisions of infantry and at least one cavalry division. The total number of infantry divisions is 60 and there are 18 divisions of cavalry. Each division, cavalry or infantry, is divided into three brigades, and these in their turn consist of three regiments. An infantry regiment is composed of three battalions of three companies each. Three cavalry squadrons form a regiment.

Every company should have 180 men in the fighting line and a squadron 150. Therefore the total numbers of combatants in the infantry and cavalry should be respectively 870,000 and 70,000. The real figures are nearer 600,000 and 50,000 men respectively for the two arms.

## Man 10,000 Machine Guns.

To every infantry regiment belong from 20 to 24 machine guns, and from 10 to 12 in the cavalry. The Red armies dispose, therefore, on paper, of at least 10,000 machine guns. These are of various systems—Maxim, Colt and Lewis. The artillery has a nominal establishment of 4,800 guns, light and heavy, but the real number is considerably less, and does not probably exceed 3,000, including all field artillery. Each division has special signaling, aviation, motor transport and army service units. The number of non-combatants in a division is extraordinarily high, and nearly equals that of the men in the fighting line.

According to the latest information the armed forces of the soviets are distributed in the following manner: In the northern Caucasus, on the Black sea coast, in Azerbaijan and in Persia, 120,000 men; in Central Asia and Siberia, 100,000; and at least 400,000 on the western front (of these about 10 per cent are cavalry).

## Council Without Power.

At the head of this military machine stands the revolutionary council, which is practically reduced to Trotsky alone. He is the supreme chief. Attached to the council is the headquarters staff. At its head stands Kameneff, the commander in chief. For purposes of policy, and to throw dust in the eyes of the allies, there is a special advisory board composed of old generals, with Brussiloff as chairman. But it has no influence whatsoever.

Reports on the quality of the Red army vary to an extraordinary degree and force one to the conclusion that its component parts are very unequal in quality. Some units seem to be tolerably good, a few are very good fighting material; but a considerable number seem to deserve only the name of conscripted rabble. Armament and technical appearances seem to exist more on paper than in reality.

The army of the interior, which is really a police force, is about 80,000 strong, and is quite independent of the organization described above. It is used to suppress all popular movements and to enforce the execution of the decrees of the soviet government. It consists mostly of tried communists and of Lettish, Hungarian and Chinese mercenaries.

## LONG-BURIED GOLD

New Owner of Property Digs Up Can Containing \$310.

Grapeville station, just west of Greensburg, Pa., furnished a sensation in the form of hidden treasure when Thomas Miller dug up an old tin can containing fourteen \$20 gold pieces and three \$10 gold pieces.

It is said that about 30 years ago, when Philip Bricker of Grapeville died he was supposed to have left considerable money, but it was not found by his relatives.

Lately the property was sold to Miller, and when he was razing several old buildings he struck the prize and found the gold.

Surprised Man Gets \$140 for Loan of \$100 Years Ago.

Diogenes ended his search for an honest man in Sunbury Pa., the other day when Victor Koble, health officer, truant policeman and high constable, all in one, was hailed with "Hey, Victor." Victor stopped and a man said:

"I want to pay you that \$100 I borrowed twenty-five years ago. Will \$140 pay for all?"

Koble gasped, stammered "yes" and received fourteen perfectly good \$10 bills. Koble asserted that he saved this \$100 while working as a grocery clerk at 75 cents a week. He declined to give the debtor's name.

## AMUSEMENTS

## Boxing Match at the Lyceum Tonight

Giebler, in the Moving Picture World says: "If you don't know Bill Fairbanks you soon will, for he is a comer. Young, strong and virile; riding, shooting and fighting like a demon, he is bound to make his mark in a short time in the moving picture world." If you love thrills and action, do not miss a William Fairbanks production. Fighting Bill is the right title for this picture. It is full of fights, furious action and punch. The three round boxing match, staged between Bill Fairbanks and Jean LaRogue (Al Kaufman former heavyweight champion), has never before been equalled in pictures. You will imagine yourself at the ringside watching a real slugging match when you see this picture at the Lyceum tonight.

## Chaplin Sunday

"Work", starring Charlie Chaplin, will bring real joy to the patrons of the Lyceum theatre Sunday. Chaplin's conception of this much-abused word is unique and thoroughly laugh-provoking.

When looking for a husband, advertise in the newspapers. That is what Marjory Thornecroft, played by Elaine Hammerstein, did in her new Selznick picture, "The Point of View," which comes to the Lyceum theatre Sunday.

## At the New Park Theatre

Since the arrival in this country of Georges Carpentier and his charming young bride, Mme. Georgette Carpentier, columns of newspaper space have been devoted to describing their facts and fancies, their likes and dislikes, their hopes and aspirations and the probable outcome of an encounter between M. Carpentier and Jack Dempsey for the world's heavyweight championship title.

"The Wonder Man," with M. Carpentier in the title role, was shown for the first time at the New Park theatre last night for a run of two days.

And, although "The Wonder Man" is an American society drama, as its title stated, it is more than that—it is the conveyor of all the information that the fight fans of the country have been waiting for. It is a picture which, besides furnishing excellent entertainment, gives a perfect "close-up" of Carpentier, the man and Carpentier, the fighter.

## Playing Cards.

Although it is commonly reported that playing cards were invented in France in 1392 to divert Charles VI, D'Allemagne, a French writer on the subject, mentions them as being in use in Belgium in 1379, and probably something analogous to them—marked discs or counters—have been employed in the East from remote antiquity. It is now usually thought that it was in Italy playing cards were first made, about 1370, and at Venice.

## Washington's Masonic Affiliations.

George Washington received the degree of entered apprentice in Masonry in the lodge of Fredericksburg, Va., November 4, 1752, the second degree March 3, 1753 and the degree of Master Mason August 4, 1753, and was serving as master of Alexandria Lodge No. 22 when he died. Among his papers was an eloquent appreciation of Masonic teachings.

## Many Substitutes for Tea.

There are more than 30 plants used in different parts of the world as substitutes for tea. One of them comes from the dried leaves of a fragrant orchid, a parasite like the mistletoe, and allied to the well-known vanilla of the odor of which it reminds us. The Africans have long used its leaves as medicine, and the infusion of them as a drink. Its taste is something between vanilla and bitter almonds.

# LUM PARK TO OPEN SUNDAY

15 New Bath Houses Built for Ladies, Pavilion in Finest Shape. Many Conveniences Added

15 SWINGS, 24 BENCHES AT PARK

Six Camp Stoves Provided for Picnic Parties, Wood Edgings in Bundles for Sale

Lum park season opens on Sunday, May 15. If the weather man is only decent about it, there will be a large crowd at the park all day.

A. K. Gumaer, president of the park board and manager of Lum Park has everything in spick and span shape. The pavilion breathes a general welcome. Fifteen new bath houses have been built for the ladies. Swings numbering 15 have been repainted. Two dozen benches are there awaiting occupants.

Grounds have been nicely cleaned up. Roads have been fixed up in the park, and to the park and no one need fear any bumps in the highways or park roads.

A great convenience is the addition of six camp stoves. They are for use of picnic parties in getting hot coffee etc. Wood edgings have been put in bundles and will be sold at cost, 10c a bundle.

Boats may be rented from a place across the creek near the park. Fish are plentiful in the lake, it is said, and include pike, perch, bullheads, etc. Fishermen will be numerous at Rice park tomorrow.

Wooden shutters on the pavilion protected the screens and they are used on dance nights should the wind blow. Refreshments of all kinds, cigars, etc., will be on sale at Lum park Sunday. Preparations have been made to handle large crowds.

The opening dance has been set for Friday evening, May 20, and the Blue Ribbon orchestra will play its finest selections. Special park men will see that the best of order is preserved and no disorderly conduct of any kind will be permitted.

## COMMUNITY COUNCIL BIRTHDAY

Braierd Women Attend Anniversary Gathering at Ironton and Take Part in Program

Braierd club women attended the Ironton Community council anniversary meeting held in the Ironton village hall. In addition women were present from all range towns and communities.

Braierd women took part in the program, Mrs. A. C. Weber speaking on "The League of Women Voters"; Mrs. T. E. Jones on "Necessity of Forming a County Library"; Mrs. W. C. Cobb on "The Shepherd-Towner Bill". The gathering went on record as supporting the bill and ordered messages sent to Minnesota's senators and representatives urging their support of the measure.

Among the Braierd ladies present were Mrs. A. C. Weber, Mrs. W. C. Cobb, Mrs. E. O. Webb, Mrs. R. A. Beise, Mrs. T. E. Jones, Mrs. J. P. Early, Mrs. D. M. Clark, Mrs. A. J. Hayes. Other communities represented were ladies from Trommald, Crosby, Deerwood, Bay Lake, Ironton, etc.

## POPPY SALE

Deferred Until the Poppies Arrive From Belgium. Statement Made by Committee

The poppy sale first set for May 16, will have to be deferred because the shipment has not arrived from Belgium. As soon as the poppies arrive, the ladies in charge of the sale will make announcement.

The poppy sale is in charge of Mrs. R. A. Beise, chairman of the social committee, and Mrs. Ernest Butler, chairman of the social welfare committee of the Braierd Musical club. The poppies are artificial flowers of great beauty and are symbolic of Flanders field where the torch of liberty flamed high and willing hands saw their brothers had not perished in vain.

## BRAINERD'S ODDEST STORIES TODAY

The hardest time shopping any girl ever had is one who was out to get a pair of coveralls. She didn't know whether a 36 would fit her or not and she held them out full length and they seemed too long. At length she took a pair home and said she would see how they fit.

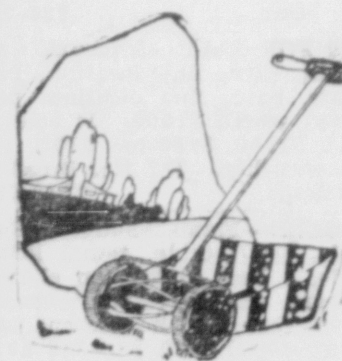

Thermometer slipped on Friday. No wonder, it was Friday, May 13. Overcoats were in demand.

## Coal Bids Wanted

## HOUSE BOAT TRIP

Floating Leisurely Down the Mississippi from Lake Vermillion to New Orleans

Floating down the old Mississippi river in a small boat house equipped with a gasoline motor, a couple stopped at Braierd and made the portage by team from Rice lake to below the paper mill. Some repairs were made here and supplies purchased.

The couple started on their down river tour from Lake Vermillion, near Grand Rapids. They expect to arrive at New Orleans at some future day and to go to Florida.

From Braierd the house boat had clear sailing until it came to the dam at Little Falls and there a portage had to be made as was done at Braierd. It took three days to go from Braierd to Little Falls. Speed, however, is not one of the strong points of a house boat as President Harding also became aware of when he was out with Senator Freylinghousen on a boat trip in Florida.

## Mirrors That Do Not Reflect.

The people of Manchuria are extravagantly fond of mirrors. Largely they are used for ornamental purposes, being so adorned with flowers, birds, and even landscapes painted on them as to be practically unserviceable as looking glasses. The cigarette cases and purses carried by the young men of the well-to-do class usually contain small mirrors, of which their owners make constant use as do young women in their own country of glasses in va.

## Ink Spots.

For fresh ink stains apply an abundance of soap and wash hard. A little lard rubbed on the stained places before the soap is applied will loosen the stain. If this is not successful a saturated solution of oxalic acid is about all that will remove the ink. Soak the stain for a few seconds, then rinse in clear water and finally in water to which a few drops of ammonia have been added.

## "CLEANING UP BRAINERD" PRIZES

Contest Closes Soon and Elks Lodge Committee Will Award the Numerous Cash Prizes

## RECORD OF CLEAN UP WORK

Each School Pupil, Public or Parochial, Gives Story of What Was Done Cleaning Up

Replies are coming in daily in the clean up contest inaugurated by the Braierd Lodge of Elks, No. 615. A committee will soon pass on them and the prize awards will be made public.

And they are worth competing for too. The grand prize of \$5 goes to the school boy or school girl, public or parochial school, who writes the best record of personal achievement in cleaning up Braierd.

Then follow five prizes for girls and five for boys making the next best records. Each is to sign name to story, and have father, mother or guardian attach name as a guarantee that the work written about was actually done. The pupil is to give age too so that the contest will be judged by taking in the age of contestants, thus assuring a 10 year old a much chance as a 16 year old pupil.

The records written are not mere compositions as in former years in which the writer outlined what ought to be done to make Braierd a clean city, but is a record of personal achievement in wrestling with asphalts, tin cans, back yards, alleys, attics, cellars, garrets, and it's wonderful reading too. Too many reformers in the past have told other people what to do, neglecting in the meantime to attend to their own cases. Children, by the recital of work accomplished, give a wonderful record of how actual cleaning up was done and they set an example to the rest of the city to go and do likewise.

## Peculiar Whistling Tree.

Travelers in Nubia and the Soudan have heard many weird stories of the whistling tree that is heard when the wind blows, but investigation developed the fact that on the soft shoots at the extremity insects lay their eggs, the development of which leaves a small opening through which the wind makes a sound that gave rise to the belief that the tree had a musical property.

## AMATEUR VAUDEVILLE

First Prize is Won at New Park Theatre by Mauritz Nelson and Sister, on Thursday

Amateur vaudeville night at the New Park theatre Thursday evening attracted large attendance at both shows.

The first prize went to Mauritz Nelson, violinist, and his sister Gunhild, pianist. They played three selections in artistic manner and received a wealth of applause. The ten dollar first prize was awarded them. Miss Gunhild is a pupil of William F. Palmer and her playing reflects credit to her teacher.

The second prize of \$5 went to Alfred Zawadzki, a shop man, who has a voice of great range. He was billed as the Caruso of Braierd. He sang Russian and Polish folk songs and American melodies.

Arthur C. Pederson got a lot of applause for his act of songs, stories and dances. He had a wonderful makeup. On the conclusion of his last appearance some admirer presented him with a bunch of radishes and onions and "Woodrow" took them and remarked his act might have been stronger had they been received earlier. Manager Workman gave Woodrow a consolation prize of \$3.

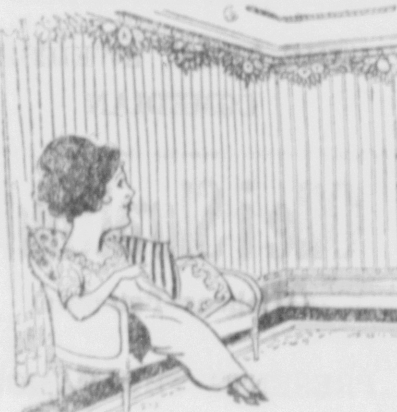

There will be two more amateur nights, Thursday evening May 19 and 26.

The regular professional circuit will be resumed June 2. The Sun company recently dropped its Canadian time and until other arrangements are made a regular Braierd schedule will not be resumed until June 2.

Entries should be made early for next week's amateur night.

Is Cause of Gossip.

By EDWARD B. CLARK.  
Washington.—Members of the new congress seem convinced that President Harding will submit a plea for legislation to create a new branch of the government service to be known as the department of education and public welfare with a woman at its head who is to have a place in the cabinet.

There is some opposition developing to the plan and the chances are that it will be voiced on the floors of the two houses of congress if the plan for the new department is submitted. There seems to be a feeling in both political parties, however, that if the President makes a specific recommendation which of course amounts to a request for the legislation, the party majority in congress will heed his words and pass the legislation necessary to make the new place in the cabinet.

It has been known for a long time that some of the elements in the population were opposed to the creation of this new branch of government. Some of the churches have feared that under the new dispensation education in church schools might be interfered with and that, in effect, teaching might be wholly secularized.

Recently, however, some of the leading churches have said that their churches can be put in a position of opposition to anything which looks like the educational welfare of the country, and so it is possible that a part of the opposition has passed from the field.

#### All Will Be Heard.

Representatives and senators have said that everybody is to be given a chance to be heard by the committees when the hearings on the measure creating the department are held. It is promised that the legislation will not be passed hurriedly. If the President shall ask that the department be created, the measure for its creation when first formulated for committee consideration will be open to suggestions for amendment, and it is probable that a good many amendments will be brought forward.

The recent appointment of Dr. C. E. Sawyer of Marion, O., as a brigadier general in the reserve corps of the United States army has a close connection with the plan for a department of education and public welfare. General Sawyer is to make a survey of the field of things related to the public health and the public welfare, and under the direction of the President is to make a report thereon. This report, in part at any rate, is likely to be used as a basis for the new legislation. It also will contain many recommendations based on Dr. Sawyer's study, concerning the activities which should be undertaken by the various bureaus which will be brought within the new department. Service for the maintenance of the health of the public is closely connected with much of the work which the government is now doing in rather a scattered form.

If the new department is created, the woman's bureau and the children's bureau of the Department of Labor; the bureau of education and the Department of the Interior, and the war risk insurance bureau and the public health services of the Treasury department, will be transferred to the jurisdiction of the new cabinet officer. It is also expected that the federal board for vocational education and all other governmental agencies dealing with soldier relief will be concentrated in one bureau of the newly created department.

There has been a good deal of gossip in Washington over the commissioning of Dr. Charles E. Sawyer of Marion, O., as a brigadier general in the reserve corps of the United States army. It should be said that Dr. Sawyer's appointment will not in any way interfere with the promotion of other officers in the medical corps of the regular army.

One bit of gossip about the matter has its "medical connection." General Sawyer is a homeopathist and most of the medical officers of the army are of the school of allopathy. In fact, it might be said that the basis of practice in the regular army is allopathic. It is not to be supposed that there will be any trouble, but everybody knows that there is a feeling between the two schools and that it never has been entirely kept under cover.

Near Scott Circle in Washington there is a statue of Christian Friedrich Samuel Hahnemann, the founder of homeopathy. Back of the figure of the doctor is a multi-colored stone which seems to throw a nimbus of light about the head. The curious have asked, "Why the halo?" The answer of the faithful has been, "One will tell."

So in a way it may be said that time has told and homeopathy seemingly has gained a high place in the medical corps of the United States.

### MAN HE WAS LOOKING FOR

Old Goldstein Bigpurse Had Good Job  
for Burglar Who Had Been  
Boyhood Chum.

"Who's there?"  
This snappy question shot forth from the lips of Goldstein Bigpurse, owner of one of the finest offices near the Mansion house.

"Only me," came the answer, and the burglar turned his lantern upon himself at once and on each side of him to show that he was telling the truth.

"You?" cried the multi-millionaire. "You? Why, so it is! You—Bill Bluffem, my school chum, my faithful companion in all schoolboy pranks. Great Scott! And fallen to such depths!"

"Well!" exclaimed Burglar Bill. "If it ain't Goldie, me old pal! I know all about you. You're president of one of the largest financial kindred in this country, and I ain't nothing but a common, ordinary burglar. Boo-hoo! If you let me go this wunst, I promise never to let you catch me again! Will yer?"  
"Ha ha!" laughed the financier. "Let you go? Well, I should say not. No! Never! For I'm going to make you a partner in the skindicate. For years I have been looking for a man with the proper training."  
So saying, the two pals embraced each other fondly.—Houston Post

### SNAGS IN LIFE'S CURRENT

Are Something That It Is the Part of  
Wisdom for All of Us  
to Avoid.

A young woman in a rage with her fiancé for some apparently inexcusable oversight, exclaimed: "I never can forgive him—never!" Her grandmother, sitting near, looked up from her knitting. "I felt the same way one day nearly 50 years ago," she said quietly. "Today I cannot recall what it was I could not forgive, but the emptiness of life that resulted is still in my mind. Don't get hung up on a snag in the stream, my dear. Snags alone are not so dangerous—it's the debris that clings to them that makes the trouble. Pull yourself loose and go on."

In our judgment we must first get rid of the eternal self; we must learn to look at the fault wholly in its relation to the person to whom it belongs, not in its relation to ourselves. None of us is created perfect, and few—if any—attain perfection. The most we

can attain is a perfect understanding of this fact, and a self-control that will enable us to pull loose from the snag and go on with the main stream of the life which in other respects is in harmony with ours; not stay hung up, emphasizing the snag and giving it more weight than the stream itself. To be able to ignore is often the most saving of grace.—Anne Shannon Monroe in Good Housekeeping.

**Nation Without Language.**  
One of the strangest things to be found among the nations of the world is the fact that Switzerland has no language of its own. The official languages of Switzerland are French, Italian and German, all three being recognized as the "mother tongue" of the majority of the inhabitants.

A majority of the people speak German, while the others use French and Italian, varying as a rule, according to the proximity of the people to each country whose tongue they speak. Public documents and notices are printed in both the French and German languages.

In the Swiss national parliament the members make their speeches either in French or German, the members being as familiar with one language as the other.

Statements from the President of Switzerland are furnished to the newspapers in both languages.

#### Panama Springs Geographic Joke.

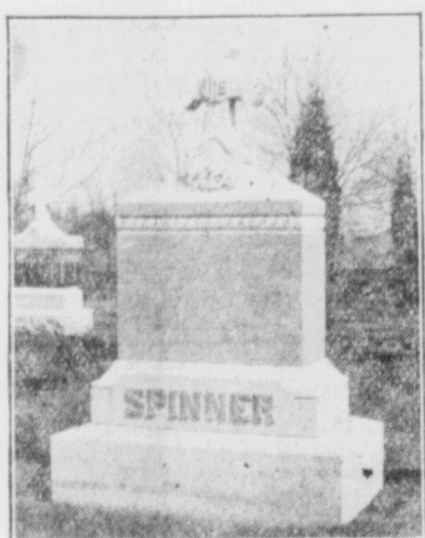

Panama perpetrates one of the greatest of geographic jokes on those who visit it. It convincingly makes east west. From Panama City the sun rises out of the Pacific, which to most American minds is the proper place only for setting suns. And he who sails through the canal from the Atlantic to the Pacific travels not from east to west, as he naturally expects to do, but from west to east, or, more accurately, from north-west to southeast. One gets the impression, as one writer has phrased it, that, "there is something crooked about this." The crookedness is found to be in the isthmus, which runs predominantly east and west, instead of north and south, and in addition makes a double curve like the letter S, so that at one place the Atlantic waters are actually west of those of the Pacific.—National Geographic Society Bulletin.

#### Reason for Sunday.

How did Sunday become the first day of the week instead of the seventh?

The Sabbath of the Jews was the seventh day of the week, the day of cessation from work among all Hebrews, following six days of labor and closing the week. Sunday was the first day of the week celebrated in memory of the resurrection of Christ. It is therefore also known as the Lord's day. In the Bible (in Acts XX, 7) we are told that the disciples in Troas met weekly on the first day of the week for exhortation and the breaking of bread. Justin Martyr said that Christians gathered then because it was the first day on which God made the world and because Jesus Christ on the same day arose from the dead.

**Different.**  
In England, while a husband can obtain a judicial separation from his wife for habitual drunkenness, the same privilege is not extended to wives of men who are addicted to drink.

**Had a Long, Family Tree.**  
Queen Elizabeth was a victim to the weakness for long pedigrees. Among the treasures of Hatfield is a genealogical tree, forty-two feet long, which was drawn up for Elizabeth, tracing her descent back to Adam. In the more modern portion of the pedigree admirably painted coats of arms are attached to all the names together with the dates of birth and death. It is curious to note that Queen Elizabeth's coats of arms filled up one side only. The other side is left blank, presumably for the arms of the husband whom it was thought her majesty would come time or other despatch to accept.
